All include a full set of all stainless steel drawers

Design Features

Exterior 304 Stainless Steel
 Interior 304 Stainless Steel
 Drawers 304 Stainless Steel
 Feet 304 Stainless Steel
 Insulation CFC Free
 Refrigerant 134A

Drawer Size 22.2" x 14.8" x 4"
 (565mm x 376mm x 100mm)

Allow an extra 1" (25mm) to width for when door is open - 2" (50mm) for double door cabinets.

Each drawer has a drain plate which stops the fish standing in its own liquor - this does not drain into the cabinet but must be washed out when the drawer is emptied.

All double door cabinets have separate units and thermostats so each side can be used independently.

The cabinets have a drain to the front for defrosting and cleaning only. All cabinets are manual defrost, approximately once a week depending on usage.

Refrigeration - A sealed system with static rear mounted condenser, no fans, no maintenance required - CFC free refrigeration

Temperature -1C to +2C for normal fresh fish, keeps lower or higher temperature with adjustment of mechanical thermostat.

A dial thermometer is fitted as standard to all cabinets, two to the double door models.

THESE ARE SIMPLY THE BEST FISH CABINET ON THE MARKET
